Empty Sky » and « Traffic » mailboxes in the spotlight in the 50'Inside show on TF1 dedicated to the 8th edition of l'Art au Sommet in Courchevel, which brings together the best graffiti artists and urban street artists in the world.

Street Art and Courchevel: an unexpected and surprising encounter...

Over the past 8 years, the city of Courchevel has become a real cultural springboard. Often associated with rhinestones and glitter, the resort of Courchevel nevertheless welcomes thousands of visitors each year, all more different from each other.

For this 8th edition of « L'Art au Sommet », designed to introduce the art of our time, artists invite themselves to the table and graffiti makes its way onto the slopes!

The gap between the immaculate snow and the bright colours of the graffiti may surprise you, but Street Art is more than ever THE movement that is the most important today: a movement of Rebellion and Freedom.

A group of the best international graffiti artists and Urban Street Artists...

the City of Courchevel invites you to meet the best Street Artists in the world.
