Furniture hit the spotlight

« A flow of images and words as warning signs of a witness of our society »

As you know, the editorial staff of Téva Déco will be visiting Paris to find the right addresses and, above all, the right decoration tips. Today, the new Art Up Déco gallery concept offers you its exhibition of artistic furniture as a unique piece from June 9 to July 10 by artist Yann Sciberras in collaboration with Lilly Ondulée. An exhibition that follows the success of the presentation of a first console at the Maison & Objet show in January 2011....

For several years, Fabienne Vieren and Laurent Jugeau of Art Up Déco have been presenting the works of the unconventional artist Yann Sciberras, who is offbeat and resolutely urban, from punk and rock culture. A pictorial work at the same time spontaneous, full of humour and self-derision...

Opening up to the world through drawing and vivid colours, this incisive artist symbolizes furniture as a vehement art, inspired by ecological claims and kicking in the ants of a consumer society.

Its collection of unique pieces of recycled cardboard, graphic, coloured and highly resistant and washable is completed by a presentation of original plexiglass furniture, thanks to an innovative process with its authentic paintings that will be inserted according to your choice.

Discover an urban painting, instinctive, influenced by the movement of free figuration and bad painting...

Coralie Simon

"Flight to far city" on display at the "LAGOSTORE" design furniture store in Rennes.
